謙愛勤誠 VERITAS ET HONESTAS

Sponsoring Body: Hong Kong Catholic Diocesan

School Type: Aided Secondary School (Co-educational)

School Mission: Adhering to the mission of Catholic education, the school emphasizes spiritual cultivation, guiding students to experience the gospel spirit and put their faith into practice. Guided by the school motto **"Modesty, Love, Diligence, and Honesty,"** students are encouraged to be proactive self-directed learners, develop their potential, and achieve self-actualization.

1924
Father Teruzzi established Sai Kung Sung Tsun School

丁味略神父
(Father A. Teruzzi)

1941
Form one education was launched

1941-45
The school was forced to close due to World War II

1946
The school was re-established with approximately 20 students

1949
One of the few schools in Hong Kong to receive a full government subsidy

1951
Secondary education (junior forms) was relaunched

1965
Five-year programme in secondary education began

1969
English-medium secondary education was provided

1974
Evening school started

1978
Application for expansion into a 24-class standard secondary school

1981
Two-year post-secondary education was launched

1982
Chinese was used as the medium of instruction in accordance with educational values inherent in The Catholic Diocese of Hong Kong

1983
Students sat for HK A-Level Examination for the first year

2006
Renamed Sai Kung Sung Tsun Catholic School with the implementation of the "Through-train" Mode

2013
The Incorporated Management Committee was established

2019
95th School Anniversary

2024
100th School Anniversary

CORE VALUES OF CATHOLIC EDUCATION
天主教學校核心價值

真理 *Truth*

"O LORD GOD, YOU ARE GOD AND YOUR WORDS ARE TRUE;" (2 SAMUEL 7:28)

愛德 *Love*

"MAY THE GRACE OF THE LORD JESUS CHRIST, THE LOVE OF GOD, AND THE FELLOWSHIP OF THE HOLY SPIRIT BE WITH YOU ALL." (2 CORINTHIANS 13:13)

公義 Justice

"LOVE AND TRUTH WILL MEET; JUSTICE AND PEACE WILL KISS." (PSALMS 85:11)

家庭 Family

"HONOR YOUR FATHER AND YOUR MOTHER, SO THAT YOU MAY LIVE LONG IN THE LAND THE LORD YOUR GOD IS GIVING YOU." (EXODUS 20:12)

生命 Life

"THEREFORE I TELL YOU, DO NOT BE ANXIOUS ABOUT YOUR LIFE, WHAT YOU SHALL EAT OR WHAT YOU SHALL DRINK, NOR ABOUT YOUR BODY, WHAT YOU SHALL PUT ON. IS NOT LIFE MORE THAN FOOD, AND THE BODY MORE THAN CLOTHING?" (MATTHEW 6:25)

CURRICULUM DEVELOPMENT

Subjects offered:

Junior Form:

Chinese Language, Putonghua, English Language, Mathematics, Science, Religious & Moral Education, Chinese History, History, Geography, Computer Literacy, Visual Arts, P.E, Music, Citizenship Economics and Society and Other Learning Experiences (OLE)

Senior Form:

Chinese Language, English Language, Mathematics, Citizenship and Social Development, Religious and Moral Education, Chinese History, Visual Arts, P.E, Physics, Chemistry, Biology, Geography, Economics, Information and Communication Technology, Tourism and Hospitality Studies, Business, Accounting and Financial Studies, Ethics and Religious Studies, Creative Arts, Life Planning Education and Other Learning Experiences (OLE)

Notes:

1. The primary medium of instruction is Chinese, with some subjects taught in English.
2. The school keeps pace with the times and actively aligns with the latest curriculum policies of the Education Bureau. Therefore, the curriculum planning is subject to revision from time to time, and the above information is for reference only.

Curriculum Characteristics 課程特色

Our school offers a diversified curriculum that enriches students' learning experiences, helps them broaden their horizons, and guides them in setting personal development goals.

Junior Curriculum: The curriculum is highly practical and connected to daily life. Students are encouraged to actively participate in both on-campus and co-curricular activities to widen their perspectives. The junior secondary curriculum is seamlessly aligned with the senior secondary curriculum, enabling students to adapt to senior-level learning early on.

Senior Curriculum: We offer a diverse senior secondary curriculum. In addition to core subjects and the common curriculum, a wide range of elective subjects is available. Embodying the philosophy of "integrating arts with sciences," students can choose two elective subjects from different learning areas. Furthermore, Secondary 4 students transitioning to Secondary 5 can apply for Applied Learning (ApL) courses offered by external organizations.

Common Curriculum: This includes Religious and Moral Education, Physical Education, Music, Creative Arts, Community Service, and Other Learning Experiences (OLE) such as arts, cultural appreciation and career exploration.

Teaching & Learning 學與教

1 Learning and Teaching Strategies

- **Creating Diverse Learning Experiences:** We implement cooperative learning to boost students' learning motivation, help them develop their talents, and foster positive values.
- **Integrating Real-World Relevance and Digital Tools:** Subject content is enriched with real-life elements. We utilize various e-learning platforms and tap into community resources to enhance the effectiveness of learning and teaching.
- **Empowering Learners Across Disciplines:** All subjects are dedicated to strengthening students' learning motivation, confidence, and essential skills.

2 School-based STEAM Education Curriculum

- **Implementing a School-based STEAM Curriculum:** We implement a school-based STEAM curriculum and provide diverse platforms to foster students' interest in STEAM-related fields, while enhancing their creativity, collaboration, and problem-solving skills.
- **Promoting Ecological Conservation Education:** We promote ecological conservation education to raise students' environmental awareness, enabling them to actively participate in various conservation activities using their STEAM knowledge and skills.

3 Gifted Education and Training Programs

- We nurture language-gifted students and sponsor them to sit for recognized examinations, including the HKEAA Putonghua Proficiency Test and the International English Language Testing System (IELTS).
- We coordinate the **"S6 5* Elite Training Program"** to provide targeted coaching for top-performing students, aiming to elevate their academic results to Level 5* or above to help them secure admission to their dream universities.
- **Homework tutorial classes** for Chinese, English, and Mathematics are organized at the junior secondary level to offer individualized guidance. These classes cultivate good study habits, teach time management, provide learning resources and techniques, and encourage active participation to enhance learning efficiency and outcomes.

Teaching & Learning 學與教

4 Information Technology Education

- The **Information Technology Laboratory** and the **Immersive Learning Centre** provide highly adaptable spaces ideal for large-scale activities such as drone and autonomous vehicle operations. Equipped with advanced presentation facilities, these spaces facilitate interactive learning. Senior students can also learn programming to design their own interactive games.
- The newly renovated **Technology and Living Room** features a modular layout that can be divided into smaller rooms. Packed with specialized gadgets, it supports various STEAM activities and encourages students to explore and innovate freely.
- The curriculum incorporates the promotion of **Artificial Intelligence (AI)** and **information literacy**. Junior secondary students learn foundational coding, laser cutting, and 3D printing to progressively prepare for the demands of the senior secondary curriculum. At the same time, traditional cooking and coffee roasting classes are retained to ensure a diverse learning experience.
- Students are actively encouraged to participate in external competitions to apply what they have learned. Joining **STEAM competitions** such as drone racing and RoboMaster helps boost their interest and hone their logical thinking skills.

5 Reading Promotion

- We proactively promote reading and foster a positive reading environment to consolidate students' knowledge, provide an enhanced reading experience, and unlock their full growth potential.
- Through our **"Classroom Book Delivery"** scheme, books are regularly borrowed and delivered to junior secondary classrooms. This is coupled with a **cross-curricular reading policy** to broaden students' exposure to diverse genres. Furthermore, we offer various activities and awards to encourage reading, alongside opportunities for avid readers to join internal and external competitions to make reading more challenging and rewarding.
- We host engaging **thematic talks** by guest authors covering not only language but also culture, science, ethics, and other fields. The library also organizes **monthly events**, including library periods, thematic exhibitions, interactive workshops, book fairs, and competitions, to provide diverse reading experiences and immerse students in a vibrant reading atmosphere.

6 Teaching and Learning Support

- We have successfully secured **School-based Support Services from the Education Bureau (EDB)**. This includes assisting the Chinese Language Department in designing and optimizing its junior secondary school-based curriculum for sustainable development, as well as supporting curriculum planning for the Personal, Social and Humanities Education (PSHE) Key Learning Area.
- In **junior secondary English reading classes,** we maintain a low teacher-to-student ratio of roughly 1:6 or 1:7. Students are exposed to a wide variety of reading materials – such as short stories on iPad reading apps, Bible stories, English classics, and magazines – to nurture a lifelong interest in reading.
- We provide **targeted training** for students to participate in external competitions, helping them broaden their horizons and build strong academic confidence.
- **Small-group teaching** is implemented to gather students of similar learning paces, maximizing their learning efficiency and peer synergy.
- A wide range of **school scholarships** is established to recognize and commend students who demonstrate outstanding performance in academic results, conduct, sports, arts, and school or community service. We also actively nominate students for prestigious external scholarships to expand their perspectives and inspire them to contribute to society in the future.

LANGUAGE POLICY
全校語文政策

Hong Kong Schools Speech Festival

Form 5 Engish Drama Competition

Putonghua Proficiency Test (PSC)

- **Fostering a Biliterate and Trilingual Environment:** Our school is dedicated to creating a rich environment for learning Chinese and English, as well as speaking Cantonese, Putonghua, and English. Through our curriculum, school atmosphere, and diverse learning experiences, we maximize students' opportunities to encounter and use these languages.
- **Morning Assemblies and Student Broadcasts:** English and Putonghua morning assemblies are held every Tuesday and Thursday respectively. In addition to staging English Week and Putonghua Week, student-led English and Putonghua radio broadcasts are conducted during lunch hours.
- **Junior Secondary English Elite Classes:** English elite classes (also known as "Biliterate and Trilingual Classes") are established across all junior secondary levels. In these classes, Science and Mathematics are taught in English (EMI), and Chinese Language is taught in Putonghua (PMI).

Form 1 Community-based Learning

Getting along with visiting students from Australia

Putonghua Singing Contest

- **Phonics, Short Stories, and NET Support:** The junior secondary English curriculum incorporates phonics instruction and short story modules. Furthermore, Native-speaking English Teachers (NETs) are deployed to enrich the campus language environment.
- **Language Across the Curriculum (LAC):** We continually optimize our "Language Across the Curriculum (LAC)" initiative to strengthen collaboration between English and content subjects. Apart from language disciplines, junior secondary classes integrate English vocabulary and cross-curricular English elements into various subject lessons.
- **Interdisciplinary Synergy via the STS Cafe:** Through the "STS Cafe" project, cross-curricular English activities are organized across the English Language, PSHE (Personal, Social and Humanities Education), and Technology & Living departments. Utilizing a mobile coffee kiosk as an innovative platform, this extended learning experience effectively enhances the school's English-speaking environment.

English Fun Day

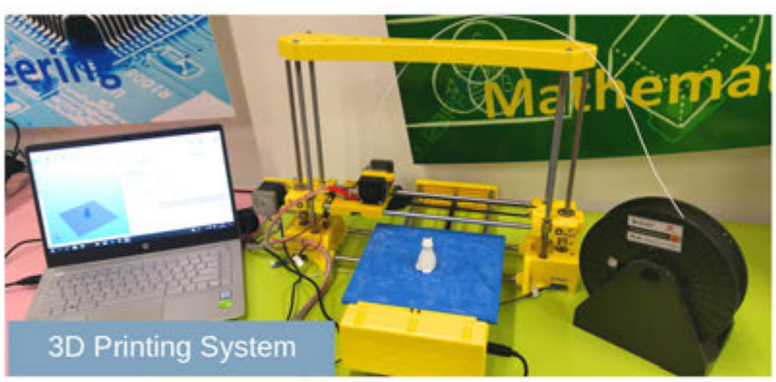

STS English Cafe

資訊科技教育
I.T. EDUCATION

Our school utilizes Moodle as our central e-learning platform to store teaching materials for all subjects. It provides extended learning resources to challenge high-achieving students to pursue excellence, while offering foundational practices to help students consolidate their learning basics.

IT Prefects won Silver and Bronze in the Youth IT Ambassador Award (YITAA)

The BYOD scheme is implemented school-wide. Tablets are integrated into classroom teaching across various subjects to enhance in-class interaction, boosting both students' learning interest and academic effectiveness.

3D Printing System

Robot Programming

App Inventor Advanced Course

Summer Python Course for Senior Form Students

Creating VR scenaries with CoSpace

Flight Simulation Course

Unity Workshop

資訊科技教育
I.T. EDUCATION
FACILITIES INTRODUCTION

To provide students with an enhanced learning experience, our school's computer room has been newly renovated and equipped with an immersive VR system. Through various applications, students can effectively expand and broaden their learning horizons.

IT Lab (Information Technology Laboratory)

The space within the IT Lab can be flexibly reconfigured to facilitate various activities, such as drone and autonomous vehicle (unmanned vehicle) training.

Equipped with two interactive electronic whiteboards, the room is also well-suited for regular computer classes and presentations.

Immersive Learning Centre 沉浸式學習中心

The Immersive Learning Centre is equipped with advanced immersive presentation systems, making it highly convenient for all subjects to conduct relevant learning activities.

Furthermore, senior secondary students will learn to apply programming skills to develop interactive games, enabling them to put their knowledge into practice and meet the evolving needs of society.

STEAM Education

Our school promotes STEAM education through a dual-layered approach. On one hand, we integrate STEAM elements into the core curriculum, combining knowledge and skills from mathematics, science, and technology. On the other hand, we identify and nurture talented students through specialized activities and enrichment programs, encouraging them to participate in scientific research and various competitions to provide ample opportunities for them to unleash their full potential.

School-Based STEAM Curriculum

The school has established a two-year, school-based Maker Curriculum. By acquiring STEAM-related knowledge and skills, students work in groups based on an annual theme to design a device that can "improve human lives." Their learning outcomes and creations are then publicly showcased before the end of the academic year.

Form Two STEAM Showcase

Presenting to students from the Primary Section

Showcasing learning outcomes

ViuTV interviewing Aerocorner

Visiting the Civil Aviation Department (CAD)

Form One STEAM Workshop

Learning about wire soldering

Learning to use glue guns

STEAM Education

Activities and Competitions

Our school actively participates in various STEAM activities and competitions, providing students with a valuable platform to exchange ideas with other schools and teams, while learning from one another and sharing best practices. Our students have demonstrated outstanding performance in these competitions, earning numerous awards and accolades. Through diverse STEAM training opportunities, students are equipped to become future STEAM experts and leaders, ready to make significant contributions to the development of society.

RoboMaster Youth Tournament

Explore Hoi Ha Wan's coral reefs on a glass-bottomed boat

Stargazing on campus

Form Three STEAM Fieldwork Day Camp

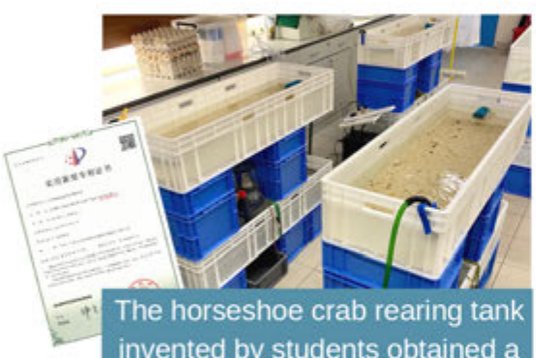

Science Week - Marshmallow Challenge

International Workshop on the Science and Conservation of Horseshoe Crabs

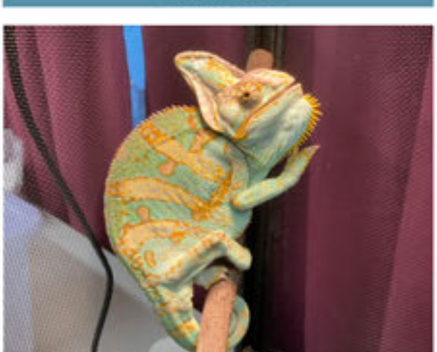

STEAM AND ECOLOGICAL CONSERVATION Education

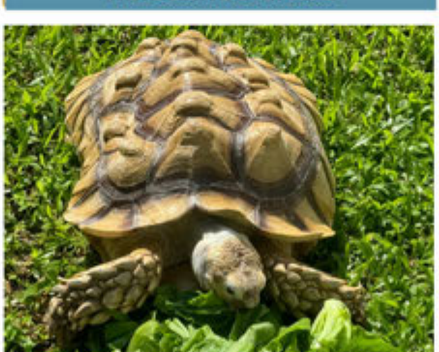

Centred around the themes of ecological conservation and environmental protection, our school provides a platform and organizes activities that allow students to encounter various living organisms up close and conduct field studies, thereby raising their awareness of conservation and sustainability. Students also have the opportunity to participate in scientific research and conservation work, utilizing their STEAM knowledge to contribute to sustainable development.

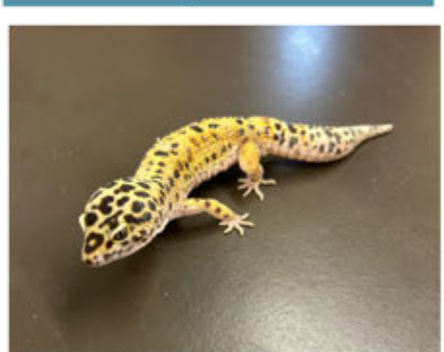

The horseshoe crab rearing tank invented by students obtained a national utility model patent certificate

Studying the breeding of horseshoe crabs

Reordering the Chinese white dolphin's skeleton

Chameleon

African Spurred Tortoise

Leopard Gecko

TVB filming horseshoe crabs in the school

ViuTV interviewing the animals on campus

STS World of Insects

Our school's "World of Insects" is planted with nectar plants that attract butterflies to inhabit the area. Since its establishment, more than 20 butterfly species have been recorded here, accounting for one-tenth of all butterfly species in Hong Kong. In addition to greening the campus, the STS World of Insects allows students to learn about different insects and plants, utilizing tangible facilities to advocate for the importance of environmental conservation among students.

Integrating Technology and Conservation

The STS World of Insects utilizes natural species recognition software in conjunction with classroom learning. This allows students to identify local flora and fauna, classify their species, and explore ways to protect butterflies – ultimately achieving the meaningful goal of ecological conservation.

生涯規劃教育
L.P. EDUCATION

To complement the newly introduced Senior Secondary Life Planning Education curriculum, our school successfully applied for funding from the Quality Education Fund (QEF) to revamp and establish the Life Planning Education Centre. Our goal is to use diversified and interactive approaches to help students gain a deeper understanding of life planning concepts.

Life Planning Education Centre

Peer Support and Self-Discovery

In addition to regular life planning lessons, the Centre is staffed by student **Life Planning Ambassadors** during after-school hours. This provides a welcoming space for peers to explore their personal interests, aptitudes, and future prospects.

The Centre is well-equipped to support students in making informed decisions about their futures:

- **Further Studies Information:** Houses a wide range of academic resources to keep students up-to-date with the latest higher education pathways.
- **Interactive Tabletop Games:** Features iPads and various educational card games, encouraging interactive and collaborative learning among peers.
- **Gamified Career Exploration:** Offers immersive VR job simulations and Nintendo Switch career simulation games, perfectly blending entertainment with education to spark students' interest in the world of work.

Life Planning Activities

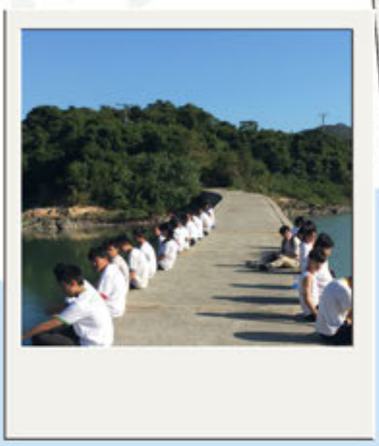

心靈教育

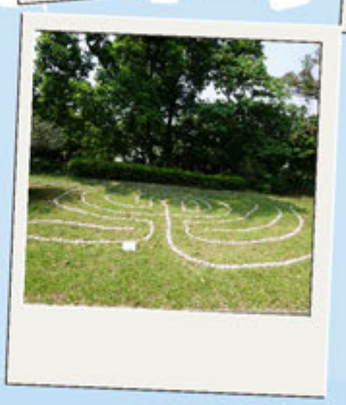

Spiritual Education

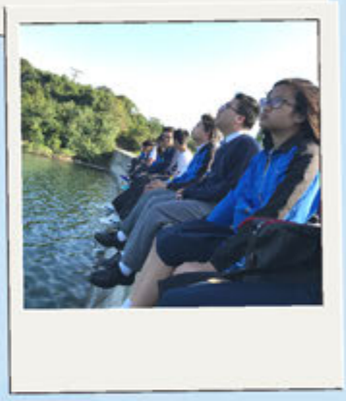

Spiritual Education centers around three core life dimensions, all of which are essential milestones in adolescent growth:

- **Self-Management Education:** Empowering students to manage and take charge of their own lives effectively.
- **Life Planning Education:** Guiding students to purposefully map out and plan their own futures.
- **Universal Love Education:** Inspiring students to become empathetic individuals who are deeply connected with all living beings and the world around them.

The Ultimate Goals of Spiritual Education:

- **Empowerment and Renewal:** To help young people cherish and affirm the value of life, continually renew themselves, and dedicate their lives to the greater good.
- **Positive Transformation:** To awaken the positive growth mindset within youth, shaping beautiful minds and hearts for themselves and for the betterment of society.

Getting to Know Our Lady at STS

In early 2021, Sung Tsun began planning the addition of various Marian features and installations across the campus. Beyond enhancing the school's religious atmosphere, these initiatives aim to help teachers and students better understand Our Lady and emulate her exemplary virtues and model of faith.

"Humility in Faith, Love for Neighbours, Diligence and Duty, Devotion in Prayer"

From the birth of Jesus, Our Lady accompanied Him all the way to His death. Entrusted by Jesus on the Cross, she took all humankind as her children and continues to accompany us, "now and at the hour of our death, pray for us sinners."

Planter Murals

Obedience: Features the "Holy Family" alongside the word "Obedient" and a ring motif

Compassion: Features "Our Lady and the Holy Child" alongside the word "Merciful" and a heart-to-heart motif

Prayer Room Stained Glass

The Annunciation
God chose Mary to be the Mother of the Savior. Despite her incomplete understanding and initial anxieties, Mary chose to trust in God, accepting His invitation to conceive our Lord Jesus. *(Luke 1:26-38)*

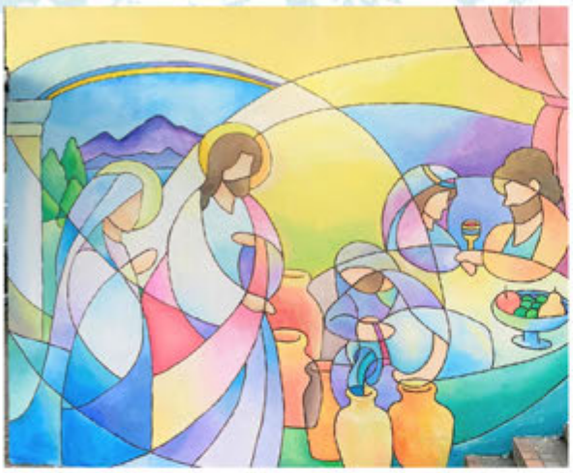

The Nativity
Even though Mary consented to become the Mother of the Son of God, the journey was not without hardship. After a long and arduous journey, she and Joseph finally gave birth to our Lord Jesus in a stable in Bethlehem. *(Luke 2:1-20)*

"Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death. Amen."

Getting to Know Our Lady at STS

The Wedding at Cana Mural

Mary and Jesus attended a wedding in Cana, where an embarrassing situation arose: they ran out of wine. Seeing that the hosts were in distress, Mary turned to her Son, Jesus, and said, "They have no wine." Jesus initially replied, "Woman, how does this concern of yours affect me? My hour has not yet come." Yet, moved by His Mother's intercession, Jesus performed His very first miracle ahead of time, changing water into wine. Today, we likewise frequently invite Our Lady to intercede and pray to God on our behalf. *(John 2:1-11)*

The Pieta on the STS World of Insects

Jesus completely submitted to the will of God. Though He was without sin, He accepted the agonizing torture of the Cross without resistance, making atonement for a fallen humankind. Finally, after uttering His last words on the Cross, "It is finished," Jesus gave up His spirit.

Throughout this final journey of His earthly life, Mary stood by her beloved Son. When His body was taken down from the Cross, Mary held Him closely in her arms. Filled with boundless sorrow – enduring the profound grief of a mother outliving her child – she silently bore this immense physical, mental, and spiritual pain. *(John 19:17-42)*

Statue of Our Lady of Fatima

In 1917, amidst the turmoil of the First World War, Our Lady appeared to three shepherd children in Fatima, Portugal, on the 13th day of each month for six consecutive months, from May to October. She came to deliver a vital message to the world: humankind must stop offending God, for He has already been offended beyond measure. Instead, people must turn back to the Lord, make reparation for their sins, and pray the Rosary diligently to implore peace for the world.

Student Achievements in Physical Education

體育成就

Our school is fully committed to nurturing the holistic and diversified development of our students. In addition to fostering academic excellence, we actively encourage students to participate in external sports competitions, providing them with various opportunities to showcase and unleash their unique talents.

In recent years, thanks to the dedicated coaching of our teachers and the unwavering efforts of our students, the school has achieved outstanding results and continuous success in the field of sports.

沖繩環島跑

Okinawa Round the Island Challenge

與夢同行

The teacher-in-charge and coach of our school's Long-Distance Running Team led 18 team members to Okinawa, Japan, for a 7-day, 6-night around-the-island running expedition. A pioneering initiative and the first of its kind among schools in Hong Kong, the challenge required team members to run a total of approximately 150 kilometers over the course of 5 days. Relying on their unwavering perseverance and well-trained physical endurance, every student successfully crossed the finish line and achieved their goal.

Sai Kung District Top Ten Outstanding Students

Ho Ming Yin, Sze Yan Kiu, and Lam Wing were each honoured with the prestigious "Sai Kung District Top Ten Outstanding Students Winner's Cup."

So Po Yee, Kwok Man Hin, Ma Tsz Ho and Chen Ho Chun were also awarded Certificates of Commendation.

Greater Bay Area Outstanding Students Selection

The "Greater Bay Area Outstanding Students Selection" is co-organized by the Hong Kong School Boards Association, the Education University of Hong Kong, and the Hong Kong-Shenzhen Youth Culture Association. Our students, **So Po Yee and Sze Yan Kiu**, were honoured with this prestigious title. This award primarily recognizes students who have demonstrated exceptional performance and excellence in academic achievement, talent development, and community service.

Scholarships

Our students have successfully secured numerous internal and external scholarships, including:
